

# Developing Quality Mathematics Teaching.

Monday 17th June & Tuesday 9th July 2024

Judy Wardle  
Deputy Director of Newcastle Research School

Each session 1pm-4pm

Claire Williams  
School Improvement Lead, Northumberland County Council

## Aims

Exploring evidence to support the teaching of mathematics, including:

- What does the evidence informed research say
- Mathematics guidance: key stages 1 and 2
- A simple view
- The 5 a day approach
- Metacognition & cognitive overload
- The 7 step model
- Lesson design

Please scan the QR code that will take you to the booking page.

This training runs across two sessions. If you book the training, you will be asked to attend both sessions to ensure you can explore the full range of aims that will support quality mathematics teaching.
