

Best Start for Babies Workshop

This is a great opportunity to meet other leaders and baby room educators to share ideas and discuss life in the baby room.

Aims of the session

- To understand how the learning environment can support the holistic development of babies.
- To consider how staffing, experiences and environment can be used effectively to meet the needs of under 2s.
- To reflect on your current environment and create an action plan for development, including consideration for staffing and the experiences you can provide for the children at your provision.

Where and when and how?
