

**WHAT IS  
 PICTURE  
 NEWS?**

Every Friday morning, we email a weekly news presentation, based on a thought-provoking question and engaging image. Each resource focuses on a current story with differentiated learning materials, and encourages children to think deeply and share their thoughts with others.

Picture News resources are useful for assemblies, classroom discussions, PSHE, philosophy, news or debate clubs, displays and home learning! Many schools also incorporate pupil-led Picture News assemblies and discussions.

Pupils of all developmental stages can enjoy learning from the world around them, with age-appropriate packs available for Early Years, Primary, Secondary and Special Schools.

**Why use Picture News?**

- Children can practise critical thinking
- Exploring news develops media literacy
- Children can develop communication, vocabulary, speaking and listening skills
- The resources make cross-curricular links with a broad range of topic coverage
- The resources meaningfully connect to British Values, Protected Characteristics and the UN Rights of the Child
- Children gain cultural capital by exploring real people, places, cultures and situations around the globe
- Children build empathy and understanding as they learn about others

“We have used Picture News to promote global citizenship and we feel that the open-ended questions encourage our pupils to explore and debate a wide range of issues that are relevant and interesting to our children.

The impact is often seen in the work of our School Council and the children wanting to respond to things they learn about, by fundraising and practical activity in response to some of the issues covered.”
