

Children aged 2 and 3 can now be protected against flu in community clinics, as well as your GP practice.

Protect your child...

The vaccine is usually given as a quick and painless spray up the nose.

It reduces your child's chance of needing hospital care for flu by around two thirds.

Consent codes:

For children with a Northumberland GP - NB888896

For children with a North Tyneside GP - NB888897
